

Theo Sohlman

Software developer and information systems student

Looking forward to contributing my knowledge and expertise to deliver value and innovation, as well as continuing to grow together with you.

Education

Bachelors degree in informatics, Örebro University

August 2022 - June 2025

Currently in my sixth and last semester. Achieved the highest possible grades in all courses, including courses outside the Systems Analysis program, such as Introduction to AI and Introduction to Computer Security.

Work experience

System development project at Sitevision AB, internship

January 2025 - June 2025

Systemintegration toward Jenkins to visualize build processes. REST-API, React.js, NoSQL DB-structure

Student mentor at Örebro University

October 2024 - January 2025

Contributing to students' learning in C#, intermediate course

Mentor at coding workshops within the Informatics Committee at Örebro University.

October 2023 - January 2025

Support for students' learning of software development at a university level.

Warehouse associate at Lidl Sverige AB, Örebro

June 2023 - August 2023

Picked orders using a picking truck and ensured accuracy and high standards in warehouse processes.

Preschool assistant at Älvdansensförskola, Västervik

October 2020 - August 2022

Responsible for children's development and well-being at the preschool. Worked closely with both colleagues and guardians.
